9. [] In response to the request by Representative Charles Gubser (R., Calif.) I met with []

[]
[]
[] are active in the field of what might be called anti-communism in California, and their same lay organization has been responsible for what appears to be some fairly good work in the field in the state of California. They are in town at present to meet with members of the House District Committee and the House on Un-American Activities Committee. During their investigations, documents have come into their hands which they have desired to discuss for any possible interest the Agency might have in them. In essence, the documents range from desk notes to unclassified and classified (confidential) Army documents relating to Hungary and East and West Germany. These notes and documents had been taken some time back from the office of a California magazine. The documents have been reviewed, according to [] in a prior meeting with representatives of Army intelligence in California, and copies taken of them. I thanked them very much for their interest in bringing these items to the Agency's attention, but advised that any follow up or action interest would be within the province of the Federal Bureau of Investigation. I reviewed with them a little bit of the areas of interest to Army intelligence, the Agency and the Bureau. They seemed completely satisfied and will determine with Mr. Gubser whether to follow through on this trip, and will contact the Bureau. In his absence, the meeting was reviewed with Miss Gordon, Administrative Assistant to Mr. Gubser, who noted her appreciation on Mr. Gubser's behalf for the Agency's assistance in this matter.

10. [] - GLC) In response to his inquiry I briefed Dr. Martin Sweig, on the staff of Speaker McCormack, on the application of []. I advised Dr. Sweig that [] was of interest to us in a specific occupational speciality, but unfortunately we had been unable to proceed with our original employment plans in view of limitations on our ceiling. Dr. Sweig said he understood the problem but asked that we keep him informed if there should be any future action regarding this applicant.
